SKILLS

- **Programming Languages** – Java, C.
- **Tools** – Netbeans , IntelliJ , VS Code.
- **Front-End** – React , Tailwindcss , Html , Css , Gsap .
- **Back-End** – Spring Boot , Postman.
- **Database** – Mysql .
- **Other** – Html , Css , JDBC , Data Structure and Algorithms.

PROJECTS

Front-End Development Project

E-commerce Website ([Shopping App](#))

A shopping app built during my learning phase as a functional clone of an e-commerce website platform . Instead of directly copying and write exact same code , I focused on improving the design of the actual website and implement to my code and try to build an structure code making it more simplified and optimized by taking preference of actual website

- **Technologies:** HTML , CSS , Javascript . .

This Is Digital ([This Is Digital](#))

This is a clone of thisisdigital.com , built while learning Locomotive Scroll and GSAP integration in code . Unlike the original , I incorporated serval custom animations using GSAP.This is also different from original website because I use serval animation using gsap and look like website more effective .

- **Technologies:** HTML , CSS , Javascript , Tailwind , Gsap and Locomotive js .

Full Stack-Development Project

• GTA(Group Task Assign) Project'

A task management system designed to enhance technical skills and consistency among students . The platform includes an admin who assign the task to group of students with deadlines . For example if there is four students , the admin assigns a task on their skills level to all of them . This project allowing students to track each other's progress which encouraging consisten learning their skills.

- **Techstack** : React , Spring Boot , MySQL , Tailwindcss.

EXPERIENCE

NEWRISE TECHNOSYS PVT LTD([LinkedIn](#))

Jr. Java Developer | Internship

- Developed and managed **employee database** using **MySQL & Spring Boot**.
- Handled **multiple logs** efficiently for system monitoring.
- Contributed to the **backend development** of the company's internal application.
- **Internship Duration:** 10th Oct 2024 – 10th Dec 2024 (2 months).

ACHIEVEMENTS

- **615+** questions on Leetcode ([Leetcode](#))
- **1st Rank** in the Inter-College Coding Competition – Code Warriors 2023. ([Certificate](#))
- Completed Internship programme on R Programming and Analytics by CRISP. ([Certificate](#))

Competitive Programming & Problem Solving

Leetcode([leetcode](#))

Solved **615+ problems**, earned **8+ prestigious badges**, ranked among the **top 82,000 globally**, with a **1575+ rating**.

GeeksforGeeks([geeksofgeeks](#))

Solved **135+ problems**, refining problem-solving skills across topics.

EDUCATION

Oriental College Of Technology Bhopal , India	2022-Present
Computer Science Engineering	C.G.P.A – 7.8/10
Ideal Higher Secondary School(MP Board)(10th)	2020 - 89.6%
Govt. Subhash Excellence Higher Secondary School(MP Board) (12th)	2022 – 90%

Relevant Coursework: Data Structures and Algorithm, Databases Management Systems, Object Oriented Programming, Introduction to Data Science, Software Engineering, Basic Computer Engineering.
